Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate:

Apologies I have no idea if this is the right way to feed back about the plan. The plan aims to improve active travel but I feel there are significant elements missing.

Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above:

There is no mention of improving the active travel provision in terms of cycle parking except where there is a "development". I live in Woodseats and there is unlikely to be any developments on the main shopping street. In Woodseats we live with a very

busy thriving centre, cut through the middle with a main road. Most people who shop there come on foot. If there was cycle parking more people might be prepared to ride, so reducing the congestion. For all the people who are walking, there is a lot that could be done to improve the street. A few trees would make a lot of difference. A couple of parklets in place of a few parking spaces would make a huge difference to the feel of the area and make it feel like someone cared about Woodseats as a place to live. Last but not least, a few park benches would mean that elderly people, or anyone struggling, could sit down part way along the street for a rest.

If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s):

No, I do not wish to participate in hearing session(s)

If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate:

The plan aims to improve active travel but does not go far enough in this important area.

Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above:

It is important in this area of Sheffield to create active travel routes (walking and cycling) between the universities and the areas where most students live.

Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate:

The plan aims to increase active travel but doesn't sufficiently take account of cycle storage

Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above:

Cycle storage - there should be a minimum number of cycle parking stands dependent on the length of the shopping street, available at all shopping areas (Walkley, Woodseats etc), not just where there are developments. I do feel quite strongly that the main hospitals should have a bicycle hub for safe storage.
