Do you consider the Local Plan is legally compliant: Yes

Do you consider the Local Plan is sound: Yes

Do you consider the Local Plan complies with the duty to co-operate: Yes

Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate:

Policy SA6 makes no reference to developing or enhancing green spaces, other than Bolehill Woods. I support the designation of Bolehill Woods as a Local Green Space. It is likely an ancient wood and needs to be protected from development for its future survival. This would be in keeping with the proposed aims of the Local Plan in protecting and enhancing green spaces and biodiversity.

Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above:

There needs to be additional mention of greenspaces in the policy SA6, as this is an important part of the Local Plan. It should include a statement such as:
Create, protect and enhance accessible green spaces and recreational opportunities to support biodiversity net gain, connect natural habitats and develop ecological stepping stones.

Do you consider the Local Plan complies with the duty to co-operate: Yes

Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate:

I support protection and enhancement of greenspace and increased biodiversity. There is reference to a Green Network. I imagine a 'network' as having connections whereas many green spaces aren't connected in a network. I would like to see an entry in the policy to encourage connection of green spaces where possible to create a real green network.

Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above:

Have a genuine 'Green Network' by:

protecting, creating and developing accessible green spaces and recreational opportunities including linked green spaces to support biodiversity net gain, connect natural habitats and ecological stepping stones.
