Do you consider the Local Plan is legally compliant: Yes

Do you consider the Local Plan is sound: No

Do you consider the Local Plan complies with the duty to co-operate: Yes

Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate:

The current status of the land is as part of a green belt. To maintain this, is essential to the character of the area.

The traffic density, currently, overwhelms the infrastructure. An addition to this would be ludicrous.

The change of use would not be in keeping with an established community that still retains a village atmosphere.

The farming community has suffered greatly over the last decade. To remove this land from this core essential function will again cause suffering in a vital element of this areas support of the country as a whole.

No consultation with the local community or risk impact/assessment has been performed
, thus in contradiction to the devolution of power that the government has implied is now its policy.

Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above:

The site should be retained as a green belt location.
Other sites should be examined to determine a better location for change of use.
Traffic infrastructure to be improved to reduce congestion and reduce the impact on global warming, not increase it.

If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s):

Yes, I wish to participate in hearing session(s)

If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:
