**Do you consider the Local Plan complies with the duty to co-operate:** Yes

**Please give details of why you consider the Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate:**

It will aggravate an already congested traffic problem. Some years ago I questioned the then leader of the council, Jan Wilson, on plans for speed bumps through the heart of Beighton. In a written response, she said they were there to stop people using the roads targeted for speed bumps. Today, motorists are choosing to drive over the speed bumps rather than negotiate the growing traffic problems on the roads designated as an alternative. This will clearly grow a bigger problem with the proposed development which will only increase traffic to already congested roads. Further I question whether the resources will be available for health and education needs should the transient population be added to tge area as suggested b

**Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above:**

Traffic capacity needs to be increased, including new management infrastructure at major junctions. Extra resources need to be provided for local schools and health services. [REDACTED]

[REDACTED] The system is clearly inadequate at present without added pressure from a transient population b
