

# Strategy on a Page: Sheffield Housing Strategy 2024 - 2034

**Our vision** is that everyone in Sheffield has a home that supports good health and is suitable for their needs and aspirations. We want people to have more housing choice and better access to a home which is safe, affordable and ready for a changing climate. Together with our partners, we will achieve this through focusing on the following **five ambitions**.

## More homes and housing choice

Increase the range of good quality homes for all residents

Create new lifetime neighbourhoods in and around the city centre

Accelerate regeneration

Increase affordable housing provision

Build homes for the future

## Housing carbon emissions will have been reduced to net zero by 2030

Develop a residential net zero plan for all housing in the city

Build the skills and capacity to deliver our ambition

Improve understanding and awareness

Prioritise vulnerable households

Support climate and flood resilience

## Safe, good quality and comfortable homes

Improve quality and safety standards across all homes

Tackle damp and mould in Sheffield's housing

Ensure fire safety

Improve landlord performance across the city

## Great, safe neighbourhoods that people are happy to call home

Support and invest in the knowledge, skills and capabilities of our communities

Strengthen collaboration between services and communities

Make neighbourhood assets work better for the whole community

Create safer neighbourhoods

Bring more properties back into use

## Homes and housing services that end homelessness and support healthy, independent lives

End rough sleeping and prevent people from becoming homeless

Support all households to be healthy and independent

Improve the quality and range of supported housing

Tackle health inequalities

Encourage more flexibility in existing homes to enable independent living
