STATEMENT OF REASONS

The Authority's reasons for proposing to make the above named Order(s) are as follows:-

- For avoiding danger to persons or other traffic using the road or any other road or for preventing the likelihood of any such danger arising, or
- For facilitating the passage on the road or any other road of any class of traffic (including pedestrians).
- for preserving or improving the amenities of the area through which the road runs

Explanatory Notes:-

Connecting Sheffield: Darnall–Attercliffe-City Centre is a planned cycling, walking and public transport infrastructure scheme being brought forward under Connecting Sheffield, a new approach designed to transform travel, alongside complementary environmental improvements. We are now consulting on our proposals for this scheme and would like to hear your views.

The Lower Don Valley is regenerating and has become an important employment and leisure area. An area stretching between the centres of Rotherham and Sheffield is now described as the Advanced Manufacturing Innovation District (AMID), with the Lower Don Valley at its heart.

Darnall and Attercliffe are experiencing significant growth in new housing, and new educational facilities have opened in recent years. There are several major leisure and sports centres in the area including Sheffield Arena, ice Sheffield, the English Institute of Sport, and the Sheffield Olympic Legacy Park.

Connecting Sheffield: Darnall–Attercliffe-City Centre has been designed to transform access between these growing employment, leisure and housing opportunities in Darnall, Attercliffe and the Lower Don Valley into the City Centre and to Meadowhall, which will make the area more attractive to live, work and invest in.
